Features:

- Custom built to fit your tractor loader mount system
- Reversible hydraulic brush drive, lift & tilt
- Requires 45 hp+ tractor/loader with 15 gpm (60 litres per min) hydraulic flow Operates from 4in (10cm) above ground level to the maximum safe operating height of your loader
- Quick unloading right from tractor seat with hydraulic bottom dump door Fully screened hopper top with adjustable internal baffle ensures effective air flow seed capture & maximum harvesting
- Dual stage, reversible, long lasting nylon brush efficiently collects the seed, leaving stalks and straw standing
- Harvest a wide variety of seeds from native 7 forage grasses, chaffy wildflowers, many legumes, herbs, spices, forages, shrubs, & special crops
- Optional stainless steel Shelbourne-Reynolds Type header for tough headed wildflower & regular grain seeds
- Rugged construction of galvanized sheet, painted plate & tubular steel
- Optional concave harvester bar for more aggressive seed threshing
- Quick payback period - usually pays for itself in one season or less
- 8 ft (2.4 m) harvest width; harvest 4 ac/hr @ 3 mph ground speed
- Hopper capacity ~ 40 cu ft (1.1 cu m); empty weight 1,000 lbs (454 kg)
- ***Pays for itself in one season!***
